FROM: [REDACTED]

Chief, IPC Staff/ODDI

SUBJECT:

Secure Reading Facility for the PMAP

1. The DCI's Political-Military Advisory Panel (PMAP) has been established to review and comment on a variety of activities associated with intelligence production. In order to accomplish this function expeditiously it will be helpful to have secure storage and reading space made available to them [REDACTED]

2. All PMAP members are approved for access to TS/SI/TK material. Approval for GAMMA material is in process for all the members except [REDACTED], who already has been approved for this additional access. A complete list of the panel members is attached. I expect, however, that only those located in the local area will make regular use of your facility. There should be very little, if any, need for permanent storage. In most cases, however, I will not be able to indicate ahead of time exactly how long an item should stay in the reading file. We should over time be able to develop a workable procedure so that your available file space is not overloaded. [REDACTED]

3. I have sent a letter to the PMAP members establishing some ground rules. A copy is attached for your information. Under separate cover I am forwarding a draft copy of NIE 11-10-82 which the PMAP will be reviewing over the next few weeks. [REDACTED]

4. I appreciate very much your agreeing to provide this service. [REDACTED]
